## SEARBY SHREDDER MAY BECOME UNIVERSAL.

That the former practice of shredding cane may be soon revived in all the mills in Hawaii, seems likely from the report made to the Sugar Planters' Association meeting this week by the committee on manufacture of sugar and utilization of by-products, consisting of R. S. Norris, F. P. Baldwin, H. B. Penhallow, L. Weinheimer, W. G. Ogg, A. Lydgate, George F. Renton, Andrew Adams, and F. A. Alexander. The success of the Searby shredder, an invention of William Searby, superintendent of the Puunene mill, is largely responsible for this report.

## Denied Japanese Seek To Buy Lanai

Would Lease Land For Pineapple, Says McCrosson.—Japanese Consul With Hunting Party, Says Makino.

That the island of Lanai is to be sold to a hui of Japanese, was denied in Honolulu this week, by F. E. Thompson, and John McCrosson, officers of the Lanai Company, which owns the island at present. The rumored deal, as published in last week's Maui News, was also denied by Fred Makino, who was said to be at the head of the Japanese hui. It was admitted, however, that Japanese have been negotiating for a lease on a part of the island for the purpose of growing pineapples.

M. McCrosson said that a Japanese hui was inquiring for some of the land on the island for the purpose of raising pines there, but that they were after a lease and not inclined to purchase. He said that the Japanese consul had been one of those to visit the island with the agent for the hui of pineapple growers.

Fred Makino, who was one of the party to make the trip to Lanai, said, that he was on a hunting trip to the island and chancing to meet Mr. Arita on the steamer on the way to Maui, he invited the consul, at the suggestion of one of the directors of the Lanai company, to accompany the hunting party to look over the property to see whether or not there was an advantage for Japanese on the island.

Mr. Makino further stated that he had not as yet taken up with Japanese financiers the matter of the purchase of the place and said there is no truth in the statement that land has been purchased on the island by a hui.

## THE CHRISTMAS MID-PACIFIC.

The Christmas number of the Mid-Pacific Magazine, off the press this week, is by far the most pretentious effort that has yet been made in magazine publishing in Hawaii. The number consists of 210 pages, and almost entirely of illustrations. Some 20 full page color cuts of Hawaiian scenery, together with a rich cover of which the motif is a beautiful color photograph of one of the rarer of the Hawaiian hibiscus, makes this number of the Mid-Pacific one that will doubtless be highly prized. Short, snappy descriptions accompanying the pictures, are also a very comprehensive guide to travel, not only in Hawaii, but throughout the Pacific lands as well.
